

THE ANATOMICAL RECORD

MANAGING EDITOR

CHARLES M. GOSS
Louisiana State University

ASSOCIATE EDITORS

WILLIAM U. GARDNER
Yale University

WILLIAM W. GREULICH
Stanford University

THOMAS E. HUNT
University of Alabama

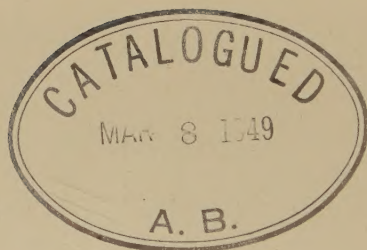

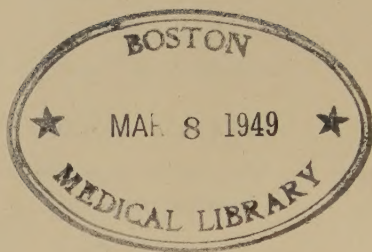

NORMAND L. HOERR
Western Reserve University

VOLUME 102

SEPTEMBER, OCTOBER, NOVEMBER, DECEMBER

1948

THE WISTAR INSTITUTE OF ANATOMY AND BIOLOGY
PHILADELPHIA, PA.

CONTENTS

No. 1 SEPTEMBER, 1948

ERNEST GARDNER. The innervation of the shoulder joint. Two figures	1
RALPH BUCHSBAUM. Individual cells under phase microscopy before and after fixation. Twenty-one figures	19
MARGARET REED LEWIS. Nile blue staining of adrenal glands of living mice. Five figures	37
EARLE L. REYNOLDS AND PATRICIA GROTE. Sex differences in the distribution of tissue components in the human leg from birth to maturity. Three figures	45
H. E. RAWLINSON AND H. W. HANKINSON. Stainable iron deposits in the epithelium of the mammary glands of mice. Three figures	55
R. W. SPERRY. Orderly patterning of synaptic associations in regeneration of intracentral fiber tracts mediating visuomotor coordination. Two figures	63
WILLIAM M. SHANKLIN. Mesothelial concretions and mesothelium in the human pituitary. Sixteen figures	77
ALDEN B. DAWSON. The relationship of pars tuberalis to pars distalis in the hypophysis of the rhesus monkey. Ten figures	103
HARRIET H. HANKE AND HARRY A. CHARIPPER. The anatomy and cytology of the pituitary gland of the golden hamster (<i>Cricetus auratus</i>). Seventeen figures	123

No. 2 OCTOBER, 1948

MARTIN SILBERBERG AND RUTH SILBERBERG. A comparison of the skeletal effects of estrogenic hormone in vitamin C depleted young and old guinea pigs. Ten figures	141
ERNEST GARDNER. The innervation of the elbow joint. Two figures	161
MARCUS SINGER AND GEORGE B. WISLOCKI. The affinity of syncytium, fibrin and fibrinoid of the human placenta for acid and basic dyes under controlled conditions of staining. Fourteen figures	175
JOHN DEMPSEY AND JAMES M. SPRAGUE. A study of the distribution of sensory and motor fibers in the lumbosacral plexus and in the thoracic nerves of the cat. One figure	195
EDMUND S. CRELIN, JR. An unusual anomalous blood vessel connecting the renal and internal spermatic arteries. Two figures	205
WILLIAM J. FURUTA. The histologic structure of the lymph node capsule at the hilum. Five figures	213
CARROLL A. PFEIFFER. Development of bone from transplanted marrow in mice. Six figures	225
JOHN G. SINCLAIR. Significance of placental and birth weight ratios. Four figures	245
W. ROBERT EADIE. Corpora amylacea in the prostatic secretion and experiments on the formation of a copulatory plug in some insectivores. Five figures	259

No. 3 NOVEMBER, 1948

EDWARD LAURENS MARK (1847-1946)	<i>Frontispiece</i>
S. GLUECKSOHN-SCHOENHEIMER AND L. C. DUNN. A new type of hereditary harelip in the house mouse. Six figures	279
ALEXANDER BARRY. The functional significance of the cardiac jelly in the tubular heart of the chick embryo. Two figures	289
BRADLEY M. PATTEN, THEODORE C. KRAMER AND ALEXANDER BARRY. Valvular action in the embryonic chick heart by localized apposition of endocardial masses. Six figures	299
BURTON L. BAKER, DWIGHT J. INGLE, CHOH H. LI AND HERBERT M. EVANS. Growth inhibition in the skin induced by parenteral administration of adrenocorticotropin. Seventeen figures	313
BURTON L. BAKER AND WAYNE L. WHITAKER. Growth inhibition in the skin following direct application of adrenal cortical preparations. Eleven figures	333
B. T. HARTER. Glycogen and carbohydrate-protein complexes in the ovary of the white rat during the oestrous cycle. Six figures	349
ELMER D. BUEKER. Implantation of tumors in the hind limb field of the embryonic chick and the developmental response of the lumbosacral nervous system. Six figures	369

Book Reviews:

RAYMOND C. TRUEX AND CARL E. KELLNER. Detailed Atlas of the Head and Neck. <i>Reviewed by</i> C. M. Goss	391
R. D. LOCKHART. Living Anatomy: A Photographic Atlas of Muscles in Action and Surface Contours. <i>Reviewed by</i> C. M. Goss	392

No. 4 DECEMBER, 1948

ALDEN B. DAWSON. Variations in the number and size of nuclei in the cells of the kidney tubules of an Australian desert frog, <i>Cyclorana</i> (<i>Chiroleptes</i>) <i>albuguttatus</i> (Günther). Five figures	393
J. JAY KEEGAN AND FREDERIC D. GARRETT. The segmental distribution of the cutaneous nerves in the limbs of man. Twenty-seven figures	409
HOMER B. LATIMER. A hernia through the muscular lacuna in a newborn male puppy. One figure	439
ANITA ZORZOLI. The histochemical localization of alkaline phosphatase in demineralized bones of mice of different ages. Fifteen figures	445
WILLIAM M. SHANKLIN. On the presence of calcific bodies, cartilage, bone, follicular concretions and the so-called hyaline bodies in the human pituitary. Twenty-two figures	469
DAVID HASKIN. Some effects of nitrogen mustard on the development of external body form in the fetal rat. Fourteen figures	493
GEORGES M. C. MASSON. Effects of estradiol and progesterone on lactation. Six figures	513
WILBUR K. SMITH. The results of application of the "acid phosphatase" method to nervous tissue after formalin fixation. Four figures	523
